Proactive team collaboration

Did this student actually move the project forward?

I experienced that this student:

- ☒ Showed leadership
- ☒ Took ownership of tasks that were assigned
- ☒ Completed tasks with attention to quality
- ☒ Actively helped the group when problems occurred
- ☒ Was consistently highly productive
- ☐ Avoided responsibility or needed frequent reminders

If possible, provide a concrete example:

Jay was the main person who did most of the UI art as well as all of the character art. Halfway through the project I switched to helping them out with the UI art and they were able to show leadership and helped me out when I needed it.

Planning & Reliability

How did they handle time, priorities, and commitments?

I experienced that this student:

- ☒ Properly used project planning tools
- ☒ Helped the team keep track of deadlines
- ☒ Consistently meets deadlines
- ☒ Set realistic priorities and scope
- ☒ Communicated early when deadlines were at risk
- ☐ Caused delays without clear communication

If possible, provide a concrete example:

They communicated (I think) during the first week that they might not be able to do all of the UI art by themselves so when I finished my own tasks I switched to UI art to help. They consistently kept the Trello updated and added new tasks when needed.

Collaboration & Communication

How did they behave in group work and meetings?

During collaboration, this student:

- ☒ Was present, focused, and prepared for meetings
- ☒ Listened actively to others
- ☒ Responded to others in a respectful and appropriate way
- ☒ Did address communication issues/conflicts
- ☒ Created space for others to speak or take responsibility
- ☒ Was on time for meetings and present to deliberate
- ☐ Dominated discussions or distracted the group

If possible, provide a concrete example:

They were almost always on time and was always present and listened actively during meetings/daily standups. They also spoke up when communication issues or conflicts presented themselves.

Learning Attitude

Did they learn and adapt during the project?

I experienced that this student:

- ☒ Was open to feedback
- ☒ Reflected on their own behaviour or decisions
- ☐ Adjusted their approach during the project
- ☐ Repeated the same issues without reflection

If possible, provide a concrete example:

They were open to feedback or suggestions on how to make/do certain things.

TOP:

What behaviour of this student had the most positive impact on the project?

They did well, they were a valuable part of the team and delivered great work. Their general attitude made for a fun and comfortable atmosphere within the team.

TIP:

What is one concrete behaviour this student could improve next time?

I think there's no one specific thing they can or need to improve on. I think just staying open to learning and gaining experience.
